

Color Transformation

Nour Mahmoud

Introduction

You are the Color Shifter, a mystic traveler gifted with the ability to transform your hue. The fractured realm is filled with obstacles, some can be crossed only in specific forms. Will you restore balance, claim the dungeon for yourself, or find another way to reshape this world?

Color Shifter is a puzzle-based adventure game where you play as an adventurer who discovers a mysterious dungeon. Using unique abilities based on color transformations, you must navigate through obstacles, solve puzzles, and decide your ultimate fate. With a combination of exploration and puzzle-solving, Color Shifter offers a dynamic experience.

Game Controls

- **Arrow Keys / WASD** – Move
 - **Z** – Undo last move
 - **R** – Restart level
 - **Spacebar / X** – Interact with elements
-

Mechanics & Abilities

The core mechanic of Color Shifter revolves around color-based transformations that allow the player to interact with the environment in different ways. By stepping on color pads, the character shifts between Blue, Green, and Red, each offering unique abilities to overcome obstacles and solve puzzles.

Core Mechanic: Color Based Interaction

The player's ability to shift between colors determines how they interact with the world. Different colors provide different strengths, allowing them to navigate hazards, clear paths, or manipulate objects. Successfully solving puzzles requires switching colors strategically to access new areas and avoid dangers.

Ancillary Mechanics:

1. **Blue: Fire Suppression & Water Traversal**
 - Blue form allows the player to walk across water safely.
 - Fires can be extinguished by pressing the action button while in front of them.
2. **Green: Path Creation Through Breaking Barriers**
 - Green form can break down walls and replace them with grass, creating walkable paths.
 - Some areas are only accessible by transforming rough terrain (walls) into navigable ground.
3. **Brick Movement for Fire Blocking & Pathing**
 - Players can push and move bricks to block fire and create a bridge for the character.

Red: The Neutral Form

- Red form has no special abilities but allows unrestricted movement and is the transition phase between different colors.
-

Walkthrough

Level 1: Awakening

Objective: Get familiar with the color changing mechanic and reach the spaceship. The player has to change to blue to traverse water.

Solution:

1. Step on the **Blue Pad** to cross the water:
2. Collect all fragments and navigate past the barriers.
3. Reach the spaceship to complete the level.

Detailed Steps:

- Move to the right twice
- Move down twice → transform to blue
- Move down four times
- Move left once → collect the fragment
- Move right six times
- Move up twice → at the spaceship

Level 2: Fractured Lands

Objective: Collect fragments while avoiding the fire. This level teaches the player the ancillary mechanic of brick or block movements.

Solution:

1. Start by moving toward the blocks towards their left.
2. Push one of the blocks towards the fire until it is over one block of fire.
3. Push the other block towards the same area that the first block blocked from the fire and push it to the other column of fires.
4. You have now created a path to the other side.

Detailed Steps:

- Move down twice
- Move to the right three times → pushes the block on top of the fire.
- Move down four times
- Move left two times
- Move up three times
- Move left once
- Move up once
- Move right seven times → passed the fire
- Move down once
- Move right seven times → collects first fragment
- Move down three times
- Move left twice → collects second fragment
- Move up six times
- Move left twice → collects third fragment
- Move right four times → at the spaceship

Level 3: Flames of Chaos

Objective: Extinguish fires and regain control of the land. This level teaches the player how the blue color and action buttons can turn off the fires.

Solution:

1. Step onto the Blue Pad and then next to a fire.
2. Press X or Spacebar to turn off the fire

3. Repeat until you can go into the 3 chambers to collect all fragments
4. Go to the spaceship

Detailed Steps:

- Steps might be too long, so I have attached a video instead.

 - I uploaded a video on YouTube to showcase the steps
-

Level 4: The Maze of Shifting Paths

Objective: Find the right path through the maze while using the green color wisely. This level teaches the player how to use the green color pads. It shows how a path can be created by pressing the action button while green on walls.

Solution:

1. Go to the top left fragment and collect it
2. Go to the green landing pad and transform colors
3. Go to the blocked fragment that is in the top middle
 - a. Press the action button to break one of the walls and grab the fragment
4. Go to the bottom right fragment and collect it
5. Go to the spaceship

Detailed Steps:

-

Level 5: Trial of the Elements

Objective: Combine all learned mechanics to complete the final challenge.

Solution:

1. Carefully manage which color you switch to at each section.
2. Solve puzzles involving the pushable blocks or bricks.
3. Use Blue to navigate water and turn off fire and Green for breaking walls.
4. Collect the fragments and get to the spaceship
